new ideas for old problems

COATINGS

T&A Supply offers several different products within the floor covering coatings division. Coatings offer tremendous performance and tremendous value. From industrial to corporate, healthcare to education, coatings are becoming an increasingly popular choice for architects, designers, floor covering contractors and end users. Coatings require some nominal training, T&A Supply has several training options available, contact your T&A Representative for more information.

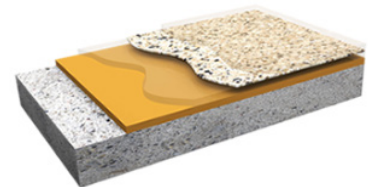

HP SPARTACOTE

Industrial Flooring: laticrete.com

Spartacote is an industrial coating that thinks it is a commercial flooring. Possibly the toughest flooring finish available, out performing even epoxy flooring. From operating rooms to airplane hangers to commercial kitchens, Spartacote has the perfect product for every application.
