

Tarkett LinoFloor

READY-TO-SHIP PROGRAM

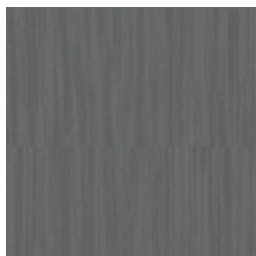

Our best-selling colors are in stock and ready to ship in 1 week for up to 500 yards.

Made entirely of natural raw materials, Tarkett's LinoFloor xf²™ is created with the same sustainable recipe we've been using for more than 120 years. These surfaces provide superior resistance to stains, abrasions, chemicals and heavy traffic, and are easily maintained with a daily neutral cleaner to reduce expenses and support better indoor air quality.

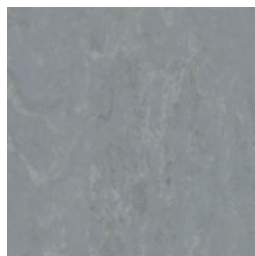

These LinoFloor colors are available and ready to ship in 1 week for orders up to 500 yards.
